

GeoTrust True BusinessID Wildcard Certificate

No image

Product Name: GeoTrust True BusinessID Wildcard Certificate

Manufacturer: GeoTrust

Model Number: -

Secure unlimited sites on the same server with a single GeoTrust True BusinessID Wildcard SSL Certificate, enabling up to 256-bit encryption. GeoTrust helps you save time and money while showing your customers that you have an authenticated, trustworthy site and that information is secure during transmission.

GeoTrust fully authenticates your organization and your second level domain to quickly issue your certificate. GeoTrust Wildcard SSL Certificates can secure multiple fully qualified domains if they share the same second level domain name and reside on the same physical server. For example, a wildcard certificate issued to “*.yourdomain.com” can secure the following sites:

- www.yourdomain.com
- secure.yourdomain.com
- product.yourdomain.com
- info.yourdomain.com
- anything.yourdomain.com

GeoTrust helps you protect sensitive information during transmission when your customers, business partners, and employees connect with you online. True BusinessID Wildcard SSL certificates enable 40-bit to 256-bit encryption, depending on the client browser capability and the cipher suite installed on your web server.

- Single root certificate
- Enables 256-bit encryption
- Secure multiple sites on one physical machine
- Full business validation
- True Site (embedded) identity assurance Smart Seal
- Compatible with 99%+ of all browsers
- AICPA WebTrust compliant
