

VeriSign Secure Site Pro Certificate

No image

Product Name: VeriSign Secure Site Pro Certificate

Manufacturer: VeriSign

Model Number: -

VeriSign Secure Site Pro SSL Certificate provides 128-bit encryption. Secure Site Pro is enabled by Server Gated Cryptography (SGC) to help ensure strong encryption site visitors. It also includes a \$250,000 warranty and the VeriSign Secured Seal.

Certain older browsers and operating systems will not connect at the strongest encryption level available to them unless there is a Server Gated Cryptography (SGC)-enabled certificate on the server. VeriSign is the leading SSL provider of SGC-enabled SSL Certificates, enabling 128-bit or 256-bit encryption for over 99.9% of Internet users.

VeriSign SSL Certificates work with virtually every Web browser that ever shipped and all popular Web browsers used since 1996. VeriSign SSL Certificates offer the highest browser compatibility achieved by any SSL Certificate.
