

## VeriSign Secure Site Pro EV Certificate

No image

Product Name: VeriSign Secure Site Pro EV Certificate

Manufacturer: VeriSign

Model Number: -

The VeriSign Secure Site Pro with EV SSL Certificate provides minimum of 128-bit and up to 256-bit encryption and more than 99% browser recognition. VeriSign Secure Site Pro with EV SSL Certificate is enabled by Server Gated Cryptography (SGC) to help ensure strong encryption to site visitors. Includes \$250,000 warranty and the VeriSign Secured Seal.

Certain older browsers and operating systems will not connect at the strongest encryption level available to them unless there is a Server Gated Cryptography (SGC)-enabled certificate on the server. VeriSign is the leading SSL provider of SGC-enabled SSL Certificates, enabling 128- or 256-bit encryption for over 99.9% of Internet users.

VeriSign SSL Certificates work with virtually every Web browser that ever shipped and all popular Web browsers used since 1996. VeriSign SSL Certificates offer the highest browser compatibility achieved by any SSL Certificate.
